

Woman Patternmaker

Womenswear Course – On Saturday

Aim of the Course

The Patternmaker, one of the main professional figure in Fashion companies, must be able to interpret proportions, shapes and volumes of the items of a collection. The Patternmaker is the link between the creative department and the industrialization of a product and must have such qualities and skills to produce prototypes in line with the philosophy of the Collection.

Skilled and competent key - figure, he/she's able to manage technical and planning problem - solving efficiently. The Patternmaker must know how to evaluate clothing wearability, create sewing patterns, must be able to control and produce them and follow the prototype - making process. He must also suggest the proper machinery and processing – methods to use in order to optimize work.

Educational Path

The Course programme includes: the acquisition of a “method” which Patternmaking is based on; the interpretation and the realization of models after identifying volumes, shapes and fashion trends; wearability tests; defects corrections and the study of grading sizes.

Enrollment eligibility

Open course of specialization. A good knowledge of the Italian language is required for foreign students.
